and can are systems shark

Solution

1. Sharks are considered dangerous **because** they can attack people.
2. Most sharks are harmless **as** they don't attack people.
3. Whale sharks are harmless **since** they eat plankton.
4. Over-fishing of sharks is dangerous **for** the oceans health.
5. We must protect sharks **as** they are vital to the oceans survival.
6. Eating shark fin soup is terrible **because** it is endangering shark species.
7. The Great White Shark is the most dangerous shark **because** it has sharp teeth.
8. Sharks help keep the ocean healthy **as** they eat sick sea animals.
9. The Mako Shark is the fastest of all shark species **since** it has a similar tail to that of a tuna fish.
10. We need to help sharks **as** they are important to the whole ocean system.
11. We must never eat sharks **as** it will endanger them forever.
12. A sharks habitat can be shallow or deep waters **since** they live in different areas of the world.
13. Bull sharks are the only shark that can live in saltwater and freshwater systems **because** they have special salt glands.
